DESCRIPTION:

PRO-GRIP pads are designed to reduce or eliminate mat movement on hard floors. Perfect on granite, marble, terrazo, or any hard flooring. PRO-GRIP's tacky, non transferable surface will hold on the back of the mat and lock it to the floor. PRO-GRIP will maintain it's tackiness until it gets dusty or dirty at which time simply washing the PRO-GRIP pad with water to remove the dust will renew it's tackiness. Made from Polyurethane Gel.
