## SECURITY AWARENESS TRAINING

Automated  
Managed Services

Reports &  
Analytics

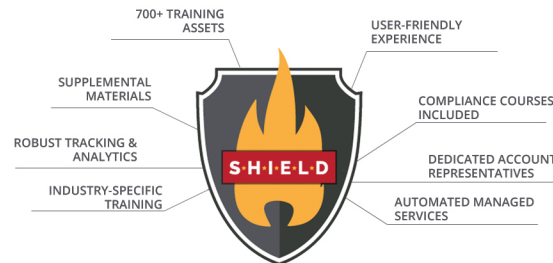

The TechGuard Security S.H.I.E.L.D deflects the "human element" threats of organizational cyber risk through a comprehensive & sustainable security awareness training solution – proven to develop competency & impact behavior across the workforce.

- Covers the cybersecurity training topics required by the U.S. government (NIST), plus PCI, GDPR, HIPAA
- Multiple modes, themes, & feature options to support best practices for driving awareness
- High production quality, gamification, simulation, & adaptive learning experiences

Develop a security-minded culture & ensure enterprise assets are protected by the critically important "human firewall"
